EnergySaver

LV Induction Motor
Severe Duty
NEMA Premium Efficient

All premium efficient motors are not built the same.

Key Features

Built to the Highest Standards and Certifications

The Energy Saver NEMA Premium Efficient design meets CSA-Motors and C-390, UL-Component & Insulation System Recognition and CE mark for the 320 frame and smaller.

Three year warranty (36/40 months) is standard. This comprehensive warranty program covers both mechanical and NEMA Premium efficiency performance.

Meets NEMA MG1 table 12-12 premium efficiency levels. Tested per IEEE Standard 112, Test Method B.

The insulation system meets NEMA MG1-31 standards for motors operating on Inverter power at 460 or 575 volts. Includes a 10:1 variable torque along with a 4:1 constant torque speed range.

The frame, end shields, fan cover and conduit box are a rugged cast iron construction.

A recessed steel-reinforced neoprene slinger minimizes contaminants from entering the bearing cavity.

Additional HP is available at 1.15 service factor for severe applications.

A non-hygroscopic, anti-fungus Class F insulation, with an 80°C (NEMA B) temperature rise.

0.08 in/sec vibration meets the IEEE 841 Standard.
